

# Thing for You

Hinder

Well now that it's morning  
Where do you want to go from here  
Well now that we're sober  
Are your thoughts of me more clear

Oh yeah  
And now that your head is right  
Did ya dig last night  
It keeps playin in my mind

Cause girl I gotta thing for you  
And I think it's kinda crazy  
Cause I know that you had someone too  
Wondering where you were last night  
For now we'll say goodbye  
But don't think we're through  
I gotta thang for you

Well now that you're home  
Will he be the first thing that you see  
I know you'll compare us  
How does he match up next to me

Oh yeah  
And now that your head is right  
Did ya dig last night  
It keeps playin in my mind

Cause girl I gotta thing for you  
And I think it's kinda crazy  
Cause I know that you had someone too  
Wondering where you were last night  
Girl I gotta thang for you  
And I know that night was hazy  
But I still remember waking up  
And kissing your head one more time  
For now we'll say goodbye  
But don't think we're through  
I gotta thang for you

Well I remember laying your head down  
I remember loving all your sounds

Cause girl I gotta thing for you  
And I think it's kinda crazy  
Cause I know that you had someone too  
Wondering where you were last night  
Girl I gotta thang for you  
And I know that night was hazy  
But I still remember waking up  
And kissing your head one more time  
For now we'll say goodbye  
But don't think we're through  
I gotta thang for you
