

## a feeling

Hindia

Don't know what to do with this song  
I just know that I got a feeling  
A foreign city and I'm all alone  
All I got is this certain feeling

Did I take this away from home?  
Don't know how to describe this feeling  
Tried everything just to overcome  
This exact particular feeling

Don't know what to do with this song  
I just know that I got a feeling  
A foreign city and I'm all alone  
All I got is this certain feeling

Did I take this away from home?  
Don't know how to, to describe, this feeling  
Tried everything just to overcome (Overcome)  
This exact particular feeling

Somebody help  
I think I might just drown  
Deep inside, pull me out  
I haven't got enough sleep  
I guess, I found the key to my success  
I confess that I'm rambling, a mess  
This is me at my best

I think this is me at my best  
When I'm overwhelmed by a feeling  
Then that's me at my best  
I'm a big bowl of chaos  
I choke the world when I cry  
I think that's when I'm at my best (My best, my best, my best)

Doves flying up in the air  
Just a bit outside my reach  
Sing for me your gift of freedom  
Don't wanna be like this anymore (Anymore)  
I guess I'm nothing at my best  
I guess I'm nothing at my best

Cukupkanlah ikatanmu  
Relakanlah yang tak seharusnya untukmu  
Cukup sudah yang lalu-lalu  
Kgunakan lukaku 'tuk menggenggam dunia
