

# Take Me Back

Hinds

I woke up sick of not being enough  
My birds are still singing yesterday's song  
Behind my back, my shadow is gone  
She ran away, babe, I'm out of control

Don't take me back  
Don't take me back

I saw your friends and I ran out of breath  
I didn't know we were fighting to death  
Nothing could be good enough to replace  
Your lips on mine, babe, but you have to wait

So take me back  
So take me back

Missed your last call, now I'm missing your laugh  
What would it mean if I asked you to stay?  
'Cause now all I want is to go back in time  
To treat you right, babe, I'm out of my mind

Please, take me back  
Take me back
