

Enough

Hippie Sabotage

I can never do enough
They're always askin' for too much
I need to get some better luck
Need a moment to adjust
So many faces I don't trust
There's no sense in yelling man down
No one can hear me they ain't comin' around
Up to my neck when I'm gonna drown
They hear so long I had a double down (down)

I ain't gonna change
Was what it is
I ain't shakin' hands
For makin' amends
I'll breakin' your chin
I came here to win
I'm killin' you sharks
I'm cuttin' your fins
I'm breakin' the silence
I'll stay with the Grim
You stayin' behind me
Forgot all my length
I came with a smile
I came here for kill
I vape as a lion
See I don't forgive

I got an appetite for destruction
I'm on a warbed that I'm gardenin'
Bitch you can see me from a fuckin' mile away
I ain't scared you can all come on in
All this trouble shit ain't new to me
I've had a million dollar in loyal fees
Seven years bitch still on my feet
Let's go to the top
Let's see you bleed
(Hey)

Only option is to runnin'
No stoppin' unless you run it
I'm the ghost that keeps on hauntin'
No one come close I see you stumblin'
Give no slack I see you crumblin'
Don't relax I see you tumblin'
Off your head you know I'm huntin'
Paintin' red I'll make it stunnin'

You got no reason why I got a hundred
You don't believe me so I'm gonna sign it
You think that I'm reach while I see you lounging
I'm looking for mischief and you're just a puppet
See I got nuttin' but I'm still makin' something
Never admit that I'm not wondering
But in the end I know

I can never do enough
They're always askin' for too much

I need to get some better luck
Need a moment to adjust
So many faces I don't trust
There's no sense in yelling man down
No one can hear me they ain't comin' around
Up to my neck when I'm gonna drown
They hear so long I had a double down (down)

So please, don't provoke me
That no one control me
There's no one above me
Like no one before me
I'm breakin' your system
I'm risin' above
When I'm makin' a work
I ain't worry about judgement
I'm turnin' the milk into butter
Ain't crawl out the bucket
I'm ain't makin' music inspired of puppets
I'm learnin' that sometimes you gotta say fuck it
I'm here so close but never can touch it

Awake and in peace and I don't want creep and catch you asleep (yeah)
Fuck makin' peace I take you at ease I'm takin' a seat (yeah)
You wanna a bridge so I took a lead
You're just a bitch you're just a
I'm givin' you pain I'm stashing your grave
You're fadin' away I'm takin' a lead
I want to fight you into battle
No one sees you just a shadow
While you lookin' like you rattled
I've been runnin' with the jackals
Breakin' you down I'll make you trampled
See you lookin' like you're fragile
I ain't talkin' nor I babble
Tear you down I will dismantle

You got no reason why I got a hundred
You don't believe me so I'm gonna sign it
You think that I'm reach while I see you lounging
I'm looking for mischief and you're just a puppet
See I got nuttin' but I'm still makin' something
Never admit that I'm not wondering
But in the end I know

I can never do enough
They're always askin' for too much
I need to get some better luck
Need a moment to adjust
So many faces I don't trust
There's no sense in yelling man down
No one can hear me they ain't comin' around
Up to my neck when I'm gonna drown
They hear so long I had a double down (down)
