

Find Me

Hippie Sabotage

You won't find me
You won't find me
You won't find me
You won't find me

I've been running late
I've been tempting fate
I think I've lost my way
My mind feels like a stranger
I can't seem to take it when you all seem to blame me
I need to go chase this but I am not complaining

'Cause you won't find me
'Cause you won't find me
'Cause you won't find me
You won't find me
