

Red Moon Rising

Hippie Sabotage

Red moon I see you risin'
No win to the horizon
These joints won't kill my stress
I'm trying to forget
But oh no I won't stay silent
All this pressure makes a person get violent
Too much I can't protest
These walls I won't excel
So red moon go keep on risin'
I'll look to the horizon
These joints don't kill my stress
Next time I'll plan ahead

So red moon go keep on, on, on, on
So red moon go keep on, on, on, on

Red moon I see you risin'
No win to the horizon
These joints won't kill my stress
I'm trying to forget
But oh no I won't stay silent
All this pressure makes a person get violent
Too much I can't protest
These walls I won't excel
So red moon go keep on risin'
I'll look to the horizon
These joints don't kill my stress
Next time I'll plan ahead

So red moon go keep on, on, on, on
So red moon go keep on, on, on, on
