

# Forget It

Hippo Campus

Guess the party's almost over  
Always hated counting sheep  
You promised that you'd love me  
At least until you fell asleep  
I get lost in all the noises  
I get lost most of the time  
And I'm rarely asking why  
I don't wanna come down

I'll forget it, you'll forget it, apathetic, all my life  
Just a minute till it's finished, got me spinning, hold me tight  
I'll forget it, you'll forget it, apathetic, all my life  
Just a minute till it's finished, got me spinning, hold me tight

Almost died when you got closer  
Stole the breath right from my lungs  
Dancing on your living room floor  
I'm useless but I don't care anymore  
Tomorrow won't be there when you call  
Won't be living at all, do what you want while you got me  
Facing fears on an unmade bed

I can be a nervous wreck, think I made a mess  
Watching you get dressed, got me saying

I'll forget it, you'll forget it, apathetic, all my life  
Just a minute till it's finished, got me spinning, hold me tight  
I'll forget it, you'll forget it, apathetic, all my life  
Just a minute till it's finished, got me spinning, hold me tight  
(I'll forget it, you'll forget it, apathetic, all my life)  
Maybe we can do it over  
(Just a minute till it's finished, got me spinning, hold me tight)  
(I'll forget it, you'll forget it, apathetic, all my life)  
Maybe in another life, oh  
(Just a minute till it's finished, got me spinning, hold me tight)

Dancing on your living room floor (I'll forget it, you'll forget it)  
I'm useless but I don't care anymore (Apathetic, all my life)  
Tomorrow won't be there when you call (Just a minute till it's finished)  
Won't be living at all, do what you want while you got me (Got me spinning,  
hold me tight)  
(I'll forget it, you'll forget it)  
Facing fears on an unmade bed (Apathetic, all my life)  
(Just a minute till it's finished)  
I'll remember your pink bed (Got me spinning, hold me tight)

Oh  
I remember, I remember it  
Oh  
Got me spinning, got me spinning now  
Oh  
I remember, I remember it  
Oh
