

# I Got Time

Hippo Campus

I would've never believed you  
If you told me how lucky I'd get in this life  
Got twice what I needed  
When I say it I mean it, I've been doing alright

Sometimes I feel like I don't  
Deserve all the love I get in a day  
Spent a year on the highway  
Played to no one on Friday  
Used to care now I don't

Somehow I made it this far  
Driving around in the dark  
Why should I get hung up on anything?

Because I got time  
Going nowhere but I got all night  
Not gonna miss it when it hits just right  
Gonna make it go slow

They told me it was only a dream  
Living a life for the big screen  
Isn't worth what you take away at the end  
What's the rush?  
If this is as good as it gets I'll be more than fine

Because I got time  
Going nowhere but I got all night  
Not gonna miss it when it hits just right  
Gonna make it go slow
