

Kick In The Teeth

Hippo Campus

My neighbor tommy bought a six-pack
He's on his porch and really throwing 'em back
Says he'll get rich soon as his mom dies
Says falling in love ain't really worth his time

Think I need a little more than what he's asking for
Think I need a little more of you

So when you go home could you think about me?
I'm about as lonely as a cowboy can be
And a night without you's a kick in the teeth
So when you go home could you think about me?

God, I'm a sucker when you do that
Thing with your hair feels like a lover's attack
At your beck and call most nights now
Forever your rodeo clown

I wanna see you dancing in my sweatshirt
I wanna see you dancing all night

So when you go home could you think about me?
I'm about as lonely as a cowboy can be
And a night without you's a kick in the teeth
So when you go home could you think about me?

Skinny dipping in the moonlight
Drinking tequila till the sunrise
Stay in this moment for a lifetime
Living doesn't mean a thing without you
Without you

So when you go home could you think about me?
I'm about as lonely as a cowboy can be
And a night without you's a kick in the teeth
So when you go home could you think about me?

When you go home could you think about me?
I'm about as lonely as a cowboy can be
And a night without you's a kick in the teeth
So when you go home could you think about me?

So when you go home could you think about me?
I'm about as lonely as a cowboy can be
And a night without you's a kick in the teeth
So when you go home could you think about me?
