

Moonshine

Hippo Campus

Wasting my days, burning my pockets like a dying star
Smile and wave, pressing on with lessons in the shape of scars
So unexpected, someone like you'd like someone like me
Making love in a hearse, man, can you keep up?
Can you hold the truth as tight as me?

One night stand in a flatbed pickup, shot of moonshine making you shine too
Burn, baby, burn as the world turns to disco, loving you is all I wanna do,
yeah
Long shot looking for your heart
After all this time spent trading mine for something brand new
My Southern belle springtime dewdrop sweetheart, loving you is all I wanna d
o, yeah

The radio's bought up, acid rain on my parade
Been caught up in our small talk, short time till our dying days

I think it might mean something, mean something
If you wanna be something someday
I think I'm gonna be something someday
If you're gonna need something, something, something, something

One night stand in a flatbed pickup, shot of moonshine making you shine too
Burn, baby, burn as the world turns to disco, loving you is all I wanna do,
yeah
Long shot looking for your heart
After all this time spent trading mine for something brand new
My Southern belle springtime dewdrop sweetheart, loving you is all I wanna d
o, yeah

Loving you is all I wanna do, wanna do
Loving you is all I want to do
Loving you is all I wanna do, wanna do
Loving you is all I want to do

How the hell did we get here?

Don't worry so much even though the best of us are already gone
We'll live another day with a special someone on the tip of our tongues

I think it might mean something, mean something
If you wanna be something someday
I think I'm gonna be something someday
If you're gonna need something, something, something, something

One night stand in a flatbed pickup, shot of moonshine making you shine too
Burn, baby, burn as the world turns to disco, loving you is all I wanna do,
yeah
Long shot looking for your heart
After all this time spent trading mine for something brand new
My Southern belle springtime dewdrop sweetheart, loving you is all I wanna d
o, yeah

Loving you is all I wanna do, wanna do
Loving you is all I want to do
Loving you is all I wanna do, wanna do
Loving you is all I want to do

Loving you is all I wanna do, wanna do
Loving you is all I want to do
Loving you is all I wanna do, wanna do
Loving you is all I want to do
