

Ride Or Die

Hippo Campus

If you wanna go outside for my love
Get by for my love
You could see right through me
If you wanna go and get high for my love
Make you cry for my love
Like you said you knew me
If you wanna go and waste time for my love
Pay no mind to my love
You could walk right through me
If you wanna go outside for my love
Ride or die for my love
Could you see right through me?

If you wanna go outside for my love
Get by for my love
You could see right through me
If you wanna go and get high for my love
Make you cry for my love
Like you said you knew me
If you wanna go and waste time for my love
Pay no mind to my love
You could walk right through me
If you wanna go outside for my love
Ride or die for my love
Could you see right through me?

If you count the seconds I lack I'll break my back just thinking about it
Add it up and then subtract, I'll leave you be if you want me to
Spent my money but I'll make it back
Like cold hard cash, like blood on the pavement
Add it up and then subtract, I'll leave you be if you want me to

I think you could, you wouldn't maybe
I think you could, if you tried to like me
I think you could, you wouldn't maybe (I think that I'm not thinking about y
ou, everyone else is leaving without you)
I think you could, if you tried to like me (I think that I'm not thinking ab
out you, everyone else is leaving without you)
I think you could, you wouldn't maybe (I think that I'm not thinking about y
ou, everyone else is leaving without you)
I think you could, if you tried to like me
