HiroYuki Sawano

Can't touch nothing 'bout the world  
But the truth almost has revealed  
Then smash out the future told  
It's time to end these miseries

Latch off my vagus nerve  
What color is my blood... red, black or white?  
Now I'm getting ready  
Oh, where are my frenemies?

Can't touch nothing 'bout the world  
But the truth almost has revealed  
Then smash out the future told  
It's time to end these miseries

Latch off my vagus nerve  
What color is my blood... red, black or white?  
Now I'm getting ready  
Oh, where are my frenemies?

Have I gone so mad?  
The pain's through my blood
