

# DOA

Hiroyuki Sawano

Can't you see over there?  
Such a horrible sight  
They're devouring all like you  
Here comes the giant hands  
Breaking through the wall  
As dawn arrives  
We still survive  
Nobody knows what's going on  
Tearing my town, limb by limb  
Where are your mom and dad?

Was it shocking for you?  
Something is scaring you  
Enemies will hunt you  
No matter what you do

But we're gonna fight for you  
'Til we defeat them all  
If not... there's no way out

Keep your weapons aimed  
Here comes the chilling face  
Push down your fear  
Jump on the necks of the monsters  
You can't hide your self  
You can't run  
We're fighting for our lives  
And we just can't lose again  
There's not much time  
Be ready to fight  
Do it

I know how you feel  
But we know what we must do  
I know how you feel  
But we know what we must do  
I know how you feel  
But we know what we must do  
I know how you feel  
But we know what we must do

Keep your weapons aimed  
Here comes the chilling face  
Push down your fear  
Jump on the necks of the monsters  
You can't hide your self  
You can't run  
We're fighting for our lives  
And we just can't lose again  
There's not much time  
Be ready to fight  
Do it

Was it shocking for you?  
Something is scaring you  
Enemies will hunt you  
No matter what you do
