

Missing Piece

Hiroyuki Sawano

Smiley kids are playing around
Their voices goes around
Try and see what we've got
Everything has washed away

He's gone now
How did I go wrong?
Behind a scene between the line
Can't get over you since your gone
I hope you're alive

Looking back your footstep remind me
How long you've been there?
Anyone can show and guide you
Don't feel you're alone
Anytime we forget things
Every time our roots are strong
Everything it's a shock to walk around
But life goes on

Tell me why this sacrifice
Something we had done in the past
Is if it some kind of the punishment?
We must listen sky to earth

Looking back your footstep remind me
How long you've been there?
Anyone can show and guide you
Don't feel you're alone
Anytime we forget things
Every time our roots are strong
Everything it's a shock to walk around
But life goes on

In the darkness, the winding road
That's on my side
Bring it back a bring it down
In the rain, stormy day
Sunshine a bit of hope, a whisper in the wind
So bring it back
Bring it down
So bring it back
Bring back yesterday
