Furi dake no kotae to ĕru Tai de ensō o tsunagu  
Hohoemu reido o daita kibō  
Erabu tame naraberu kitai no nai asa ni  
Motareru no wa tometa

Sotto ringu nazoru hidari no te ga fureta ai to yume  
Utawa reru kurīn'na kido mokuteki mo nai hodo  
Fuanteina eikō no oto

Take off my sought idol  
Then I can breather in so deep  
Kiraina otona no kage ga kasanaru yō ni kieta  
Yudaneru risō o sute tereba tsugi no jikan e no kōru

Have I still been cared?  
We've been together after all these days  
No much time talking over day and night  
When I feel your stare  
My heart's like flying high above the phase  
Maybe we'll overcome the scars

You want me to be free  
Free from legacies, free like meteors  
That's why I cried  
Since I've been attended to so kindly  
You're who make my makeup's off

Take off my sought idol  
Then I can breathe in so deep  
We had paced back and forth all that time  
You do never know that love I felt  
I can be an ordinary girl  
While I've been right next to you

Won't you promise me?  
No matter how far apart  
Always keep thinking of me  
We must be heart to heart  
Baby... twinkle, twinkle!  
My little fortunate star  
Are you with me?

Take off my sought idol  
Then I can breather in so deep  
Kiraina otona no kage ga kasanaru yō ni kieta  
Yudaneru risō o sute tereba

Take off my dress and crown  
Then I can fall sound asleep  
Kawaita kotoba no ame ga hokori no yō ni kieta  
Kagi o shitsu kushi kaketa sono-saki kara no kōru
