

## O Little Light

Hiss Golden Messenger

Oh little light  
Let it shine wherever you are  
And the road on which you roam  
Won't be quite so dark

Oh little light  
Let it climb out of your eyes  
Where we labour and we talk  
Yeah this is where we lie

A blue sky bends for me  
No master, I am free  
Riding 'round in the rain  
With this song I'm singing  
No master, I prefer  
So call all your destroyers  
Our rulers are shouting  
About this song I'm singing

Oh little light  
Come through my garden fair  
And softly, when you go  
You're gonna find everybody there

Oh little light  
No, I'm not afraid to die  
But look at what I've got  
I'd like to stay just a little while

A blue sky bends for me  
No master, I am free  
Riding 'round in the rain  
With this song I'm singing  
No master, I prefer  
So call all your destroyers  
Our rulers are shouting  
About this song I'm singing
