

# All Messed Up

## Hit the Lights

To the ones, to the ones who disappear  
Where do you hide? Do your secrets keep you there?

Here's to the kids who keep dreaming with the lights turned on  
And they swear that they're right when the world says "wrong"  
And I guess I've been lost but I feel so found tonight

Don't give up, we're all fucked  
Trying harder but it's not enough  
We'll be ok, we're all messed up  
We lose it all dying to fall in love

Maybe we're all, yeah we're all just pixels now  
That got rearranged, out of line, out of place somehow

This one goes out to the kids against everything  
When the music ends, yeah they keep on singing  
So let's run away 'til it all makes sense tonight

Don't give up, we're all fucked  
Trying harder but it's not enough  
We'll be ok, we're all messed up  
We lose it all dying to fall in love

Don't give up, we're all fucked  
Trying harder but it's not enough  
We'll be ok, we're all messed up  
We lose it all dying to fall in love  
Fall in love

I know it's hard sometimes  
To escape your mind  
Where ever you go  
Just hold on to hope

Don't give up, we're all fucked  
Trying harder but it's not enough  
We'll be ok, we're all messed up  
We lose it all dying to fall in love
