Where are you right now?

There's a place in my mind where I'm laughing
There's a place in my head where I'm not me

Man or monster? Don't know who I'm hunting
And a beast speaks for me, who's the hunted?
There's disorder in mental confusion
There's confusion in mental disorder
I'm the man and the beast living in a cage
I was born just this way, distorted face
I'm divided, a double personality
Everyone can believe I am crazy

Can you tell me who I am?
Can you tell me who I am?
Can you tell me who I am?

Make it stop, don't break me down
I'll show my rage 'cause it's my life
Someone else lives in my mind
Make it stop, unleash the beast
I'll show my rage 'cause it's my life
Someone else lives in my mind
Make it stop, don't break me down
I'll show my rage 'cause it's my life
Someone else lives in my mind
Make it stop
Make it stop, unleash the beast

Make it stop
Make it stop
Make it stop

Man or monster? Don't know who I'm hunting

Make it stop, unleash the beast

Make it stop

Just do it now

Make it stop

Just do it now

Make it stop

Just do it now

Make it stop

Do it, make it stop

You see, I am not human, I am much more
