

# In The Name Of Violence

Hocico

Control, control, here we go  
We're here to chew and eat your soul  
We are enraged and we are mad  
We're violent, full of wrath

We're devils, so-called dogs  
Call our names to wake us up  
Be brave and call our names  
Be brave, there's no escape

Control, control, come let's play  
Out of the place, we where caged  
We'll go straight for the throat  
We love destruction, we are the storm

We keep barking, can you hear?  
We keep barking, can you hear?

This is our world, we'll destroy you  
Now shut your mouth as we told you  
You think you're through to play?  
Look at us that's all we say  
When the dogs play in the dark side  
You're playing now with your own life  
You think you're though to play?  
Look at us that's all we say

Don't try to stop this violence in us  
'Cause that's everything we are  
Don't try to stop this violence in us  
'Cause that's everything we are
