

Mind Circus

Hocico

There's something in my body
There's something in my tongue
It's like a little itching
And it will never go
Some people say I'm evil
But all of them can't see
That I'm a human demon

The devil is in me [x2]

This is my territory
I live in my own hell
I need no friends to save me
My soul is not for sale
An evil one possess me
And I like it that way
Come here now and fuck me
Come and enjoy my hell

Come and enjoy
Come and enjoy my hell

And this is all I see
And this is all I want
I want you all to die
So I can finally find home
And this is all I dream
And this is all I wish
I wish you all to die
So I can finally find rest

Come and enjoy
Come and enjoy my hell

And this is all I see
And this is all I want
I want you all to die
So I can finally find home
And this is all I dream
And this is all I wish
I wish you all to die
So I can finally find rest

There's something in my body
There's something in my tongue
It's like a little itching
And it will never go
Some people say I'm evil
But all of them can't see
That I'm a human demon

The devil is in me

And this is all I see
And this is all I want
I want you all to die
So I can finally find home

And this is all I dream
And this is all I wish
I wish you all to die
So I can finally find rest
