It's a revolution, don't let them interfere
We're in paradise, we'll never experience fear
Let's stimulate dead cells in your sleeping brain
Cut the bad transmission, no one is to blame

Psychoactive noises kicking in your brain
There's nothing to worry, we are on the same lane
Exploring the dark world inside your inner self
It's not paranoia, it's only a day in hell
Sensory delusions are taking the control
A twisted real pleasure, going through your bones
We discovered meaning, finally, at last
Just the real knowledge separates us from the rest

Psychonaut, psychonaut, psychonaut
Psychonaut, psychonaut
Psychonaut, psychonaut, psychonaut
Psychonaut, psychonaut

Psychoactive noise, psychoactive dreams
Psychoactive noise, psychoactive dreams

Travelling, travelling in your head
Psychoactive substance in the brain
Travelling, travelling in your mind
Psychoactive pills are your desire
Travelling, travelling in your head
Psychoactive substance in the brain
Travelling, travelling in your mind
Psychoactive pills are your desire

If you want to see now who's behind this show
Go next level and seat in the front row
Don't get too anxious, you're about to experience grace
The real evolution for the doomed human race
