

Relentless

Hocico

One, two, the devil's after you
Three, four, He's relentless like you
Five, six, the darkness is the beast
You close your eyes to see

Embrace the fire that posses you
You swore you'll never give it up
I'll take every night the pain away
Just promise to stay awake

Relentless, when the savage spirit's calling
And the ghosts from hell still haunt me
All I want is going down, down bellow
Relentless, when the savage spirit's calling
And the ghosts from hell still haunt me
All I want is going down, down bellow

Up down, addictions a disease
Can't sleep, you're always in my dreams
Up down, trouble on my mind
Hello means now goodbye

Wake up now, the sign of end's upon us
Let's drive away
Wake up now, cause the sun might never come out
Let's drive away

Relentless, when the savage spirit's calling
And the ghosts from hell still haunt me
All I want is going down, down bellow

One, two, I'm coming after you
Three, four, I'm relentless like you
Five, six, the darkness is the beast
And you belong to me

Embrace the fire that posses you
You swore you'll never give it up
I'll take every night the pain away
Just promise to stay awake

One, two, I'm coming after you
Three, four, I'm relentless like you
Five, six, the darkness is the beast

Relentless, when the savage spirit's calling
And the ghosts from hell still haunt me
All I want is going down, down bellow
Relentless, when the savage spirit's calling
And the ghosts from hell still haunt me
All I want is going down, down bellow
