

Sex Sick

Hocico

I swallow you darling, I need you give me all
I lick you my princess don't dare to say no
You are in my cage, fill me with your rage
You will do everything I say

I drink you, I eat you, enjoy me and destroy
These mornings, these evenings let me be your toy
Don't say you're in love, I will hurt your feelings
I just wanna fuck!

Sex, give me sex, give me everything
Let me posses you, get on your knees
Please don't look away, no, please don't look away
You are here to please, do what I say
Sex give me sex, give me what I want
I'm an evil angel, your devil boy
I need some sex to fulfill my fantasies
Sex is my drug, you're all I need

I take you, I sex you, I feel insatiable
Nothing can't stop it, you're under my control
I'll get you what you need, I own your body
And you're my fantasy!

I want it, I need it, I want it all the time
It kills me, it consumes me but I'm ready to die

Sex, give me sex, give me...
Sex, give me sex, give me everything

Sex, give me sex, give me everything
Let me posses you, get on your knees
Please don't look away, no, please don't look away
You are here to please, do what I say
Sex give me sex, give me what I want
I'm an evil angel, your devil boy
I need some sex to fulfill my fantasies
Sex is my drug, you're all I need
