## Hockey

Last night there was a dance club  
Playing through my hotel wall  
At first I couldn't stand it  
Then I got a brand new thought  
If I adjust my taste to the bass  
They'll play my favorite song  
One after the other whoa now

Dance in the storm  
Dance in the storm  
Dance in the storm  
Dance in the storm

Your best days lie through danger  
Say it even though it hurts  
And as your heart starts racing away  
You start to suspect it works  
Don't wait till it gets too late  
Like a living son of graves  
Your fears won't be ignored  
Make them safe

Dance in the storm  
Dance in the storm  
Dance in the storm  
Dance in the storm  
Dance in the...

If there's a mountain in your mind  
Don't run away, start to climb  
So much I want to say  
But I don't want to scare you away  
Don't want to scare you  
Don't want to scare you away

Dance in the storm  
Dance in the storm  
Dance in the storm  
Dance in the storm  
Dance in the storm  
Dance in the storm

Dance in the places you're afraid  
On the edge of a razor blade  
There's no feeling in your heart  
What a perfect place to start
