

# Defeat On The Double Bass Line

Hockey

Someone and me going out in the falling leaves and now, it's on  
Gonna wave my mind something like go off now goodbye, and you s  
aid

When I leave, how, do you feel like I'm still around  
You're fronting like you don't know nothing  
Come on

And our hearts go on the line  
And I really had some #1 highs  
You feel like you don't have the time just, play the double bas  
s line line  
In another love a la mode  
There I feel like an outlier  
I'm looking evidently doubtful  
Wait till the mornings around  
Defeat

Cry on the double bass line line  
Cry on the double bass line line  
Cry on the double bass line, defeat

You said, when I leave how do you feel like I'm still around  
And it, keeps coming this way, keeps coming this way, keeps goi  
ng this way, things keep going this way  
Keeps coming this way, things keep coming this way  
And you crashed on the joint accounts, just tell him that he ow  
es you now  
Passed over all the passwords now that's, how you're gonna work  
it out

Cry on the double bass line line  
Cry on the double bass line line  
Cry on the double bass line line  
Defeat on the double bass line line  
Throwing up faux gang signs signs  
Staying in this same place place  
And another at the same time time  
Defeat on the double bass line line  
In Julius Schulman light light  
Cry on the double bass line line  
Going to see our friends friends  
Living on the west side side side side side side side side
