

Got a diamond now  
Kill that old sound  
Something new is around  
Over the same ground  
A time and a dream  
And epicene queens  
And we go anywhere we please  
But also to the places that we are well received  
Well received

And we're out on the same old ride to nowhere  
With someone  
We're out on the same old ride to nowhere  
With someone  
And any way you want to go  
Any way you want to go go go

These are the ABCs of radical chic  
You could be a dollar or go for free  
What are you running on  
I'm running on S and M  
Hey tiger tiger are you really dreaming of them  
Hey people I could try  
Or any other way to open up my mind  
Open up my mind my mind my mind my mind

And we're out on the same old ride to nowhere  
With someone  
We're out on the same old ride to nowhere  
With someone  
And any way you want to go  
Any way you want to go go go
