

# Babydoll

## Hole

Here you come sucking my energy  
And you suck it up right off the street  
Ha..babydoll  
Here you are sucking my energy and I  
Drill it in my good hole so that I can see  
You are you are so much bigger than me  
You are you are so much bigger than me  
And a...babydoll  
My raw hand my fever blister  
Watch me watch me watch me disappear

Here she comes  
Her pants undone  
All waste and void all waste and void  
Her void...and her void wow  
There you go in your nazi car  
Oh my babydoll how a whore you are  
And your sit around with your old rag  
How can I how can I talk when you've got the gag and I  
Here you come sucking my energy  
And you suck it up baby right off the street and I  
Babydoll

In the dark yah I destroy what I began what I destroy it  
She's hanging in the blossom tree oh  
Babydoll just bleeds for me  
Babydoll  
Touch her oh I feel  
Her chemical wedding her chemical peel  
I knife me and  
I slash my and  
I knife me and  
Then I slash my my my my my  
Sickened suddenly  
Here you are as ugly as me  
Drill it in my good holes o that I can see  
Yah drill it in my good hole so that I can see yah

Here you come sucking my energy  
You suck it up baby right off the street  
Babydoll  
She starts too stare the sun  
Into the sun  
Now I I want a cancer  
That the crooked eye spun

Well you oh my and my energy  
Cause baby you are so much so much bigger than me  
Babydoll  
Little girl she's on the floor she gets it all  
Cause she's the whore  
Little girl she's on the ground she gets it all  
For falling falling down falling down and what a down  
What a whiner wow  
Help help she says I am not free  
She says help me I am withering withering  
Withering with a ring

Hang on soul it's a soul comes down  
See see it's a soul
