You see the cripple dance Pay your money, baby Now's your chance Eyes like cyanide

I am so dumb
Just beam me up
I've had it all forever
I've had enough

Remember, you promised me I'm dying, I'm dying, please I want to, I need to be Under your skin

Our love is quicksand So easy to drown They steal the gravity, yeah From moving ground

Remember, you promised me I'm dying, I'm dying, please I want to, I need to be Under your skin

And now I understand
You leave with everything
You leave with everything I am
Withering

And now I know that love is dead You've come to bury me There's nothing left here to pretend Anything

Remember, you promised me I'm dying, I'm dying, please I want to, I need to be Under your skin

I'm dying, I'm dying, please
I'm dying, I'm dying, please
I'm dying, I'm dying, please
Under your skin

Under your skin
