

here in my dreams

The Hollies

Starlight on my face
Moon bright on the ground
Fill this empty space
Rest the travel bound
After weary days
Lady luck please smile
Show the many ways
We can go where wishes go
Let's chase the shadow child

Here in my dreams
Love is warm, love is golden
Causin' me to believe
I have touch, I have seen

Sunshine of the night
Dance on crystal streams
All the things
That wishes bring
Are living in my dreams

Here in my dreams
Love is warm, love is golden
Causin' me to believe
I have touch, I have seen

Sunshine of the night
Dance on crystal streams
All the things
That wishes bring
Are living in my dreams

Here in my dreams
Love is warm, love is golden
Causin' me to believe
I have touch, I have seen

Here in my dreams
Love is warm, love is golden
Causin' me to believe
I have touch, I have seen
