

# Lady of the Night

The Hollies

Chilled to the bone I see a lady  
Stalkin' like a black cat in the night  
Shivers down my spine my mind's racin'  
Wonderin' why the lady's taken flight

Ooh ooh lady of the night  
Ooh ooh lady of the night

Can't be a dream, reality's no liar  
It's not my imagination running wild  
But to suddenly appear when I'm no high flyer  
It's got me so confused but tantalized

Don't be confused if you don't know what I'm saying  
I'm lettin' you in to what's happenin' my friend  
One of these nights she's gonna get you  
You'll experience just what I'm goin' through, yeah

Ooh ooh lady of the night  
Ooh ooh lady of the night
