

Sign of the Times

The Hollies

We're here, living together
They don't like what they see
They ask "Why live together?
That's not how it should be"

Help us help one another
Please, don't live in the past
We're a new generation
[?] from a new cast

It's not a crime
Other folks are doing it
It's a sign of the times
Don't be so blind
Accept what's going on
It's a sing of the times

So don't be hurt
We love you
Still
We want your love
And blessing
Till we do the right thing

So don't be hurt
We love you
Still
We want your love
And blessing
Till we do the right thing

Now they know why we do it
They don't say that it's wrong
We can all live together
Now we all get along
