## You Know The Score

## The Hollies

I look to the east and I look to the west Trying to find a place where there's rest You know where I go, you know it's the same show People turning their backs, not wanting to know

Look there son, you'll find hungry mouths
Saying please feed me well I'm only a child
All around you'll find fallow ground
But you can't plow a field with a hundred missiles

You know the score
You know it's war
Death and destruction
We gotta change it now
Lord only knows how
To turn it into more

Where have all the rainbows gone Where where where My, oh God, says he's seen better days Where, where, where

Speak to me, Lord Speak to me, Lord Come on down with Your fiery sword Rid this place of all its hate Show Your face before it's too late

You know the score You know it's war Death and destruction Death and destruction

Death and destruction We gotta change it now Lord only knows how
