

Let's Go

Hollow Coves

Let's go around the world
Just you and me we could see it all
Let's go and live our dream
Just you and me through an open door
Live life to the full

Can we try and find a way
To that place we've seen in magazines
Let's see if there's something more
Something beyond all these city walls
Live life to the full

What are we waiting for
Just you and me forevermore
Let's go around the world
Just you and me we could see it all
