

Milk & Honey

Hollow Coves

Lately we're seeing the same things
Running in circles day after day
Waiting but nothing is changing
We're stuck at the hurdles that get in the way

Feels like this has been a lifetime coming
Oh open your eyes
Be like a child
Life is more than making money
Don't wait for a sign
This is your time
Can't you see the race we're running

Turn water to wine
Then you will find life is full of milk and honey
Oh open your eyes
Don't be surprised
Cause this has been a lifetime coming

Sometimes we stop at the green lights
If only we'd realise, that it's time to go
Seems like we're missing the street signs
Caught in a landslide with nothing to hold

Feels like this has been a lifetime coming
Oh open your eyes
Be like a child
Life is more than making money
Don't wait for a sign
This is your time
Can't you see the race we're running

Turn water to wine
Then you will find life is full of milk and honey
Oh open your eyes
Don't be surprised
Cause this has been a lifetime coming

Hold on tight don't let go reignite
Hold on tight don't let go reignite
Hold on tight don't let go reignite
Hold on tight don't let go reignite

Oh open your eyes
Be like a child
Life is more than making money
Don't wait for a sign
This is your time
Can't you see the race we're running

Turn water to wine
Then you will find life is full of milk and honey
Oh open your eyes
Don't be surprised
Cause this has been a lifetime coming
