

We Will Run

Hollow Coves

Oh friend of mine
Down by the sea side
Skipping stones
We watched the changing tides
Far from home
Now we sleep in rows
Stories told
Walking down windy roads

The water flowed
Down in the valley
Where we arose
And hiked the mountain side
The cobblestones
All through the cities
On the road
We've come to know that
Time is all we have

So we'll go
And won't look back

We will run
With a heart that is oh so young
We have come
To a place we can go as one
We will run

We found a place
Among those five towns
Along the coast
Where color came to life
On the road
So many faces
Both young and old
We've come to know that
Time is all we have

So we'll go
And won't look back

We will run
With a heart that is oh so young
We have come
To a place we can go as one

And oh
My life
Was lost in time
But now
I see
My heart is free

We will run
With a heart that is oh so young
We have come
To a place we can go as one

We will run
With a heart that is oh so young
We have come
To a place we can go as one
