

Dive

Holly Humberstone

Honey, I'm spiraling
The web that I'm tangled in just isn't built for two
So before I let you in
Tread lightly, just tread lightly

I've made enough mistakes
To fill up the ocean's bait
And when it rains, it pours, so
If you're feeling brave
Come on, try me
Come on, try me

'Cause it's not like in the movies, you come over, try to fix me
So you thought this might be easy
Got me wedged and falling back
So I'm told I killed the mood, I only darken every room I'm in
If you can't face the fact, go ahead
And baby, dive in
Baby, dive
Oh, baby, dive in
Baby, dive

I ruin everything
So I'll give you a fair warning, so you've got time to run, and
If you're not down, that's cool, don't waste my time
'Cause I'd rather watch Real Housewives
You're such a **** liar, Camille!

'Cause it's not like in the movies, you come over, try to fix me
So you thought this might be easy
Got me wedged and falling back
So I'm told I killed the mood, I only darken every room I'm in
If you can't face the fact, go ahead
And baby, dive in
Baby, dive
Oh, baby, dive in
Baby, dive

And I want this to work
Babe, I'm the worst
Don't get your hopes up
'Cause I think we're cursed if I pull you closer
And you're sure well-rehearsed
You're saying all the right things
I guess it works for the moment
But I think we're cursed if I pull you closer

So baby, dive in
Baby, dive
Oh, baby, dive in
Baby, dive
Oh, baby, dive in
Baby, dive
Oh, baby, dive in
Baby, dive
Baby, dive
