

# Drop Dead

Holly Humberstone

Did you come around here just to start a fight?  
Drop dead  
I let you do what you want with my heart and I  
Drop dead  
And you put the poison in every word  
You said

Stop messing with my head  
Stop playing with my head  
One look and I drop dead

One time just ain't enough  
I take you back, I call your bluff  
Why don't you put a bullet to my head  
My ride or die, I'll take your love  
And tell myself it's good enough  
But you know and I know  
One look and I drop dead

Did you come around here just to get your kicks?  
Drop dead  
If I cried I'd be lying, I'd be faking it  
Drop dead  
It's a fine line in between love and hate  
I guess

I'm messing with my head  
Keep playing with my head  
One look and I drop dead

One time just ain't enough  
I take you back, I call your bluff  
Why don't you put a bullet to my head  
My ride or die, I'll take your love  
And tell myself it's good enough  
But you know and I know  
One look and I drop dead

One time just ain't enough  
I take you back, I call your bluff  
Why don't you put a bullet to my head  
My ride or die, I'll take your love  
And tell myself it's good enough  
But you know and I know  
One look and I drop dead  
One look and I drop dead  
One look and I drop dead
