

Another Day

Holly Macve

Hold me in your arms tonight
In your child-like way
Show me to the morning land
Show me another day

And as the moon claims the sky
I'll dream 'till my tears are gone
You always said you'll be there even if I ever do wrong
Hold me in your arms tonight
And show me another day

Take me to your mother's house
Where the grass grows green and long
We'll drink and you'll sing to me
Won't you show me another song

And when gray clouds move above
We'll wait until they are gone
You always said you'll be there even if I ever do wrong
Hold me in your arms tonight
And show me another day
Hold me in your arms tonight
And show me another day
