

## Time Is Forever

Holly Macve

Life, it comes, life, it goes  
And the earth keeps on moving  
Lovers love, lovers leave  
But new roses keep on blooming

And everything is changing  
Everything before my eyes  
With every heartbeat and every sunrise  
And there's no going back  
Going back to yesterday  
Time is forever, don't you run  
Don't you run, run away

Summer shines, winter falls  
In the never-ending circle  
Youth will look beautiful, youth won't last  
When something's born, something is dying

And everything is changing  
Everything before my eyes  
With every heartbeat and every sunrise  
And there's no going back  
Going back to yesterday  
Time is forever, don't you run  
Don't you run, run away

(And there's no going back)  
(Going back to yesterday)  
(Time is forever)  
(And there's no going back)  
(Going back to yesterday)  
(Time is forever)

Don't you run, don't you run  
Don't you run, don't you run  
And there's no going back  
(Going back to yesterday)  
This time, it's forever  
Oh, there's no going back  
(Going back to yesterday)  
This time, it's forever
