

## Wonder

Holly Macve

I've never been without you  
On a day like today, in December  
The year is almost over  
And lights demand me to remember  
The wonder of my child eye

It's strange to be without you  
But I'll try to find you in my dreams tonight  
I know you'd like the wine I'm drinking  
And the familiar sound of Elvis singing  
Reminding me of when we were young

But I'm alright, if you're alright  
I'm just waiting to hear your call  
And I know you'll be here with me  
When the snow starts to fall

Every christmas comes round sooner  
As the time slips away in the hourglass  
I know you'd like to see my growing older  
And meet the man with his arm round my shoulder  
Who sometimes reminds me of you

But I'm alright, if you're alright  
I'm just waiting to hear your call  
And I know you'll be here with me  
When the snow starts to fall
