They say havin' fame is a fortune  
But lately I don't think it's that important  
Expectations tryna captivate em  
But what I'm doing isn't what they used to, yeah  
I used to daydreamin English  
Chasing down songs instead of working on my thesis, hmm  
I've done so much in a year and a half  
Standing and wonder how I got where I'm at  
My freinds that know me in the 8th grade  
Still treat me like I'm in the 8th grade  
And freinds that see me on the main stage  
Won't say what they sayin to my face  
Nobody knows, nobody sees the real me  
Does anybody know  
Does anybody see the real me

Oh Girl, what you feel  
Tell me just a little bit of what your deal is  
Oh Girl  
Give us just a little bit about you Hollyn  
Come on let us get to know you  
We can hardly wait to know you  
But you gotta say [?]

I won't lie  
It's only at night when I turn off the lights  
But I don't mind  
Cause doin' what you love is a sacrifice  
And now I see clearly  
And I got you near me  
And I love what you made me to do  
What I love to do  
Is soak in all of you, hmm  
Soak in all of you  
Feel is nice from right here

Oh Girl, what you feel  
Tell me just a little bit of what your deal is  
Said, Oh Girl  
Give us just a little bit about you Hollyn
