

i miss u (interlude)

Hollyn

I miss you when the rain pours
You hated when it rained
I'll miss you when I see the note
That you wrote me when I came home
You were always so thoughtful
And I keep it in my backpack
And I keep it in my backpack
I miss you, feels like my chest has a hole
Right in the middle where my heart was
I miss you, feels lonely when I think of us together
In your car, holding my hand, laughing hard
If not me, then somebody, please
Tell this boy I love him when you see him on the street, and
If not me, then anybody
He's got tears in his eyes and the other half of me
If not me, then somebody, please
Tell this boy I love him when you see him on the street, and
If not me, then anybody
He's got tears in his eyes and the other half of me
Tears in his eyes and the other half of me

I did the right thing
Please tell me how I did the right thing
What if I let go too soon?
What am I gonna do?
And I did the right thing
Please tell me that I did the right thing
What if I let go too soon?
What am I gonna do?
What am I gonna do?
