

i think we should break up

Hollyn

Somethin' got me down; what's happenin' to me?
You can try to call, but I'ma let it ring
I'm so overwhelmed, need a little room to breathe
Somethin' got me down; what's happenin' to me?

I'm sick of all these feelings, all these feelings that I hate
All you wanna do is tell me how I've gotta change
If this is love to you, I don't want it

I think I need a little peace
I only get it when I sleep
We just need a week
See where this could take us
I don't wanna speak
Maybe we should break up, peace
I need a little peace

I can hear a voice echoin' inside of me (Echoin' inside of me)
It's tellin' me to run, tellin' me I've gotta leave (Ooh, ooh, ooh)

I'm sick of all these feelings, all these feelings that I hate
All you wanna do is tell me how I've gotta change
If this is love to you, I don't want it (No)

I think I need a little peace
I only get it when I sleep (Only get it when I sleep)
We just need a week
See where this could take us
I don't wanna speak
Maybe we should break up, peace
I need a little peace (Ho)

I, I need a little peace
It's wearin' on me
Wearin' me down, down, down
Oh, it's wearin' me down, down, down
I don't recognize me

I think I need a little peace (Baby, peace, baby)
I only get it when I sleep (Only get it when I, only get it when I sleep)
We just need a week
See where this could take us
I don't wanna speak
Maybe we should break up, peace
I need a little peace, ho

Oh, I need a little peace, baby
Oh, I need a little sleep
Oh, I need a little peace, yeah
We just need a week
See where this could take us
I don't wanna speak
Maybe we should break up, peace
I need a little peace
