

Love With Your Life

Hollyn

There's only so much you can say
Til' words turn into noise
And we go round and round again
But people we were meant to blaze
A life that's beautiful
Yeah, we got so much love to give

Don't look to the left or right
You know the future's worth the fight
Don't look to the left or right (hey yeah)
L-O-V-E rolls off the tongue
But sometimes the word's just not enough
You gotta' dig a little, dig a little deeper, uh

You gotta love with your life
Like a fire burning strong
Til the night has come and gone
There's a hope that lives in you
You gotta love with your life
Like a warrior fight
Lay it on the line
If you wanna see a change
You gotta love with your life
If you wanna see a change
You gotta love with your life
You gotta love with your life

You crash into a brand new day
The world's up in your face
And they gon' whisper in your ear
Just push 'em back you need your space
To be who you gon' be
We got so much more to give

Don't look to the left or right
You know the future's worth the fight
Don't look to the left or right

You gotta love with your life
Like a fire burning strong
Til the night has come and gone
There's a hope that lives in you
You gotta love with your life
Like a warrior fight
Lay it on the line
If you wanna see a change
You gotta love with your life
If you wanna see a change
You gotta love with your life
You gotta love with your life

Don't let it pass us by
Every day and night
Gotta love with your life
Every day and night
Don't let it pass us by
Every day and night

Gotta love with your life
Every day and night

Oh, you gotta love with your life
(Li-i-i-i-ife, li-i-i-i-i-ife)
You gotta love with your life

Like a warrior fight
Lay it on the line
If you wanna see a change
You gotta love with your life
(Li-i-i-ife, li-i-ife)
You gotta love with your life

Don't let the moment pass you by
We got a chance to be the light
Don't let the moment pass you by
Don't let the moment pass you by
We got a chance to be the light
Don't let the moment pass you by
You gotta love with your life

I don't want another day to pass
Not another moment
I wanna life intentionally
In light of eternity
I wanna love like you loved
I wanna love with my life
