

# Maybe?

Hollyn

Mister, I can't use common sense  
Uh  
See something is missin'  
Like scissors cut out from the picture  
Hey mister, can we talk over the system?  
Wish I could see fourth dimension  
Written, written, written down  
Somewhere I can't see  
Would you, when it's right, tell me?  
I've been waitin' for relief  
Been waitin' for you to give me the green light  
Light's bright  
I know you lead me when it's time, so  
But time movin' so slow  
Call me when you're close

Uh oh  
No no  
Colors bleed together hazy  
Uh oh  
No no  
I've been overthinkin' lately  
Uh oh  
No no  
I hope I ain't goin' crazy  
Uh oh  
No no  
Put my money on a maybe

"It's tricky because I start to do something, then I have to stop because it doesn't feel right. Like, the timing's off... It would be easier if I didn't overthink it so much... channel the inner child in me, you know?"

When I was young and adolescent  
Learning passion and aggression  
I been waitin on a blessin'  
Look around to see what I'm blessed with already  
So, why do I feel unsteady?  
Why do I feel unsteady?  
Fallin' over, God I'm ready

Uh oh  
No no  
Colors bleed together hazy  
Uh oh  
No no  
I've been overthinkin' lately  
Uh oh  
No no  
I hope I ain't goin' crazy  
Uh oh  
No no  
Put my money on a maybe

Wait, wait, wait  
I wait, wait, wait  
My life depends on it

Interrupting my thoughts  
In order to wait, wait, wait  
Stay! Don't move! Close your eyes! Jump!  
So I do  
Nothing, silence  
Again, nothing  
Silence  
Hurry up just to wait  
When the last thing I want is to stay  
Hurry up just to wait  
Hurry up just to wait  
When the last thing I want is to stay  
Hurry up just to wait  
Silence

Uh oh  
No no  
Colors bleed together hazy  
Uh oh  
No no  
I've been overthinkin' lately  
Uh oh  
No no  
I hope I ain't goin' crazy  
Uh oh  
No no  
Put my money on a maybe
