Hollyn

Nobody loves me like you do
You got me in some kind of mood
The way I feel about you

I'm sorry you felt like you couldn't speak up
Was the lump in your throat a part of you, love?
Became a part of you, huh?
I'm sorry, yeah, you felt like there was no way out
The child in your soul's still proud of you, love
Still looks up to you, love

Remarkable how one can make it day to day
When nobody validates their pain
See the sacrifice you made
Hmm
Fill your cup, let your head fall against the pillow
Tomorrow we'll get better together
Through whatever, I'm still with you

We fell in love, both of us
Laughin' and kissin' in the rain
And we've got no choice but each other
I know it's insane, but
If you could hold my hand
That's enough, my love

'Cause nobody loves me better
'Cause nobody loves me better

She heard I was over it
He said he was done with it
He said she said they all know
Know nothing about us though
If they wanna talk, then let 'em
Let 'em til they run it out

Go ahead, nothin's holdin' you down
If you wanna leave, baby, get out
No choice to hold you down
And if you wanna leave, nobody holdin' you down, down, down
Talkin' outta the round, down

We fell in love (In love), both of us (Both of us)
Laughin' and kissin' in the rain
And we've got no choice but each other (We've got no choice, no, no)
I know it's insane, but
If you (If you, if you could) could hold my hand
That's enough (That's enough), my love

We fell in love (We did, we did), both of us, oh
Laughin' and kissin' in the rain
And we've got (We do, we've no choice) no choice but each other
I know it's insane, but
If you (If you could) could hold my hand
That's enough, my love

(Nobody loves me better)

'Cause nobody (Nobody) loves me better
(Nobody loves me better, nobody loves me better, no)
'Cause nobody (Nobody) loves me better
(Nobody loves me like you do-do-do-do-do-do-do)

(Loves me like you do)
(Oh, no, nobody, nobody)
Nobody loves me like you do
You got me in some kind of mood
The way I feel about you
