

The Wind

Hollyn

Can you see God?
Have you ever seen Him?
I've never seen God
I know He exists
I've never seen the wind
Have you ever seen the wind?
I've seen the effects of the wind but
I've never seen the wind
There's a mystery to it

We're all choosing
We're all aligning
We don't understand
Our brilliance is absent minded
Without the wind

We're all choosing
Something by saying "no"
We're all aligning
With what we fear when it takes hold of us
We don't understand
What we understand
Our brilliance is absent minded
Without the wind

This is all we know
Feels like full time closure
Listen to the way it moves
Don't you think we'd know the truth
By now?
Know the rules by now?
Know a ruse in the doubt?
Know the way that it counts?
I know we've got a vow
Written in the clouds
Ahhhhh ahhhhh

We're all choosing
Something by saying "no"
We're all aligning
With what we fear when it takes hold of us
We don't understand
What we understand
Our brilliance is absent minded
Without the wind

Well you say what does God look like?
I've never seen the wind
Have you ever seen the wind
There's a mystery to it!

Did you call it?
Are you certain?
I don't wanna mess it up
'Till I fall in
Silver lining
You won't ever mess me up

Ready when You're calling
All out
Falling
Far out
Stalling
Heart out
Calling

We're all choosing
Something by saying "no"
We're all aligning
With what we fear when it takes hold of us
We don't understand (What we, what we)
What we understand
(We don't we don't at all)
(We don't we don't at all, at all, at all)
Our brilliance is absent minded
Without the wind

Don't be troubled by the nonsense, nonsense
(Don't be troubled by the nonsense)
Baby gotta keep a good conscience, conscience
(Conscience, conscience uh huh)
Don't be troubled by the nonsense, nonsense
Baby just keep a good conscience, conscience
About ya
About ya

When I feel the breeze
All I can see is you
This is something we've got to
Hold onto
Gotta hold onto
