

# Time

Hollyn

For the love of God  
Just let go  
For the love of God  
Save your soul  
Last time we're gonna take this road  
Paving lines with the tears you've sown

Over and over again  
Over and over again  
Time won't change what happened  
Back then  
Gotta go back to the moment when  
That part of you was  
Innocent  
Sit in silence  
Be your friend

Time won't change what happened  
Back then  
Gotta go back to the moment when  
That part of you was so innocent  
Sit in, sit in silence  
Be your friend

For the love of God  
Just let go  
For the love of God  
Save your soul  
Last time we're gonna take this road  
Paving lines with the tears you've sown

Over and over again  
Over and over again  
Time won't change what happened  
Back then  
Gotta go back to the moment when  
That part of you was  
Innocent  
Sit in silence  
Be your friend

Time won't change what happened  
Back then  
Gotta go back to the moment when  
That part of you was so innocent  
Sit in, sit in silence  
Be your friend

All of a sudden  
We figured it out  
Honey, oh, I just wanna be near you now  
People keep talking  
All around  
Oh and I just wanna come set you down  
Pretty little baby  
We'll figure it out  
That's how it goes around

What you reap you sow  
That's just how the story goes  
I think we've been doing alright  
For ourselves  
Leave your own pride on the shelf  
Oh oh oh oh

Over and over again  
Over and over again  
Time won't change what happened back then  
Gotta go back to the moment when  
That part of you was innocent  
Sit in silence  
Be your friend

Baby no nothing gon' hold me down  
Even if it all goes inside out  
I know one thing  
I've been through hell  
Baby nobody can show me how to be
