## **Been to Hell**

## Hollywood Undead

Welcome to a city that'll bring you to your knees It'll make you beg for more, until you can't even breathe Your blindfold is on tight, but you like what you see So follow me into the night, 'cause I got just what you need

We're all rollin' down the boulevard, full of pimps and sharks It's a motherfuckin' riot we've been dying to start You better grab a hold 'cause now you know you're falling apart You thought these streets were paved in gold But they're dirty and dark

Been to hell, I can show you the devil Down you fell, can't hold yourself together Soul to sell, down here you live forever Welcome to a world where dreams become nightmares

Been to hell, I can show you the devil Down you fell, can't hold yourself together Soul to sell, down here you live forever Welcome to a world where dreams become nightmares

Welcome, welcome

In the belly of the best, I'm a wolf amongst sheep At the bottom of the hill, but at the top of the street Above the boulevard, schoolyard, victim of deceit And you're running hard, but this wolf is always at your feet

And you've seen it all before, but the wolf's outside your door And you're old enough to run, you ain't hiding anymore Another victim of the star spangled banner of the street Now you're in the world of the wolves And we welcome all you sheep

Been to hell, I can show you the devil Down you fell, can't hold yourself together Soul to sell, down here you live forever Welcome to a world where dreams become nightmares

Been to hell, I can show you the devil Down you fell, can't hold yourself together Soul to sell, down here you live forever Welcome to a world where dreams become nightmares

Welcome, welcome

You need to wake up and face it so you can taste my reality Now you're stuck in this place you hate And you came here so happily Then it made you lose your faith And that's what fucked with your sanity Say goodbye to your soul and say hello to your vanity

Hollywood is your friend, and the Undead are your family We'll take you to the edge, and turn your regret into agony And I'll never let you go, 'cause I know you'll come back to me I'm the reason you came here, I'm the American Tragedy Been to hell, I can show you the devil Down you fell, can't hold yourself together Soul to sell, down here you live forever Welcome to a world where dreams become nightmares

Been to hell, I can show you the devil Down you fell, can't hold yourself together Soul to sell, down here you live forever Welcome to a world where dreams become nightmares

Welcome, welcome Welcome to a world where dreams become nightmares Welcome
