

Expander

Holocaust

You will never catch me feelin' down,
You know I'm always lookin' for the bright side, baby,
Even when you're not around, I see you from the I Am Presence,
This is the right time, this is the right place,
And there is gonna be a revolution,
One, two, three, I see it comin',
Like a flowing fire, and the music is the flame!
Sexy woman, sexy woman, I love it all,
Whaddaya know?! Whaddaya know?! I just love life.

Expander - I will take it further than anyone has gone before,
I'm with you, Expander... trippin' at the speed of sound.

I would never wanna stay the same,
I will never play the blame game, honey,
To live is to grow, and that means change.
This is the right time, this is the right place,
This is all I ever wanna be, self-transcending in the moment,
Anything I need to see is there for me.
Sexy woman, sexy woman, I love it all,
Whaddaya know?! Whaddaya know?! I just love life.

Expander - I will not surrender to any self-
proclaimed authority,
Only you, Expander... changing at the speed of light.

There was never anything to fear, there will never be anything
to fear.
So let's go! Hey! Hey! Yeah, let's go!

Expander - There is no outside,
We are One together, I am You, Expander.
